FRIDAY, JANUARY 31, 1890

PUBLIC BUILDINGS

In the TIMES of last week, we urged the people of Moose Jaw to take some definite action towards inducing the Government to erect the required public buildings in this town. We are pleased to be able to state that at a general meeting of the Board of Trade this matter was discussed and a Committee, consisting of Messrs. Ross, Baker and McDonald were appointed to draft a memorial on the subject to the Government, before the estimates for the year are brought down. It was argued that in asking that these buildings be given us we are only asking the Government to settle up their account with the town of Moose Jaw. The Government claim that they hold one half interest in this townsite, the Canada North West Land Company a quarter interest, and the C. P. R. a quarter interest. Last summer the N. W. L. Co. settled their account for back taxes with this corporation for the years 1887, 1888 and 1889, by paying into the town treasury the sum of $5,040. On the same basis of settlement, even by remitting all the taxes that had accrued against these lots prior to 1887, the Dominion Government is indebted to this town to the extent of over $10,000. This is a very powerful lever to be used in pressing our claims and one that will be prominently set forth in the memorial. We do not ask for a cash settlement of this account, but we would most strongly present to the government that it is to their own interest as well as to the interest of the town that at least the amount be spent in permanent public improvements in this town. We heartily endorse the action of the Board of Trade in this matter and feel confident that if the facts above mentioned are represented to the Government the memorial will be favorably considered.

CANADIAN MORMONISM.

A Mormon Colony in Canada has become an established fact, which is destined in the near future to assume large proportions sufficient to cause us to inquire as to the reason for this influx of settlers into the North West, and its probable results. In June 1887, twelve families numbering about sixty souls came overland from Utah, under the guidance of C. O. Card, son-in-law of the late Brigham Young and located on Lees Creek in Alberta, about forty-five miles from Macleod and thirty miles from the Rocky Mountains. They began farming, and proving to be industrious settlers, it was felt that their presence in the country would be a good advertisement for Southern Alberta, and therefore they were received with open arms. The settlement is now known as Cardston and consists of about fifty families, with the expectation of a large addition in the spring. As President Woodruff, Senator Cannon, Brigham Young jr., Mr. Smith, a nephew of the Mormon prophet, Joseph Smith, visited the colony last November and expressed themselves as delighted with the country. The present leaders of the Colony are C. O. Card, J. W. Taylor, Messrs. Lyman and Farrell and A. Maitland Stenhouse, the advocate and Scribe for the Mormons, who is an ex-member of the British Columbia Legislature. The questions naturally arise, Why are they coming here? Why do they spend so much money buying land, when there is so much nearer home? These people profess to have left good homes in Utah and to have come to the prairies to start life anew. They say that they are going to obey our Canadian laws, but we do not believe that statement, for if they had obeyed the laws of the United States, they need not have had their church property taken from them, and some of their leaders would not have required to hide from the officers of the law. There is something wrong when people will leave good homes, and not give reasons that are conclusive for so doing. The Mormon population are leaving Idaho and Utah, and are purchasing land in Mexico and Canada. Are these people desirable as settlers? We answer, yes, if they will live as other settlers do, mingling with the people and becoming true Canadians, instead of remaining Mormons, and maintaining institutions that are antagonistic to our natural life. The Mormons have had as good opportunities in former years in new Territories, but a few years served to reveal the fact that although the Mormon was a good farmer, he was a bad citizen. Already in Alberta they are purchasing land, having secured a block of twenty thousand acres from the North West Coal and Navigation Company, for the purpose of forming one solid community, and settlement, where no Gentiles shall be allowed to live. This means in reality, the establishment of an alien nation antagonistic to the interests of Canadians and the Dominion. Mormonism is a disloyal institution. Its leaders teach doctrines that are treasonable to the State. They are devoted adherents of the doctrine of Church and State, but the Church must be supreme. The late investigations in Utah by the Government Commission have disclosed treasonable beliefs and practices injurious to the administration of justice, and the maintenance of natural life. The Canadian Mormons dare not hold any other beliefs than those held by their prophets, unless there may be "revelations" of truth which would help them in times of political pressure. Canadian Mormonism is the embodiment of treason, that will intimately be revealed, as the hydra headed monster whose existence is fatal to the unity and peace of the Dominion. Its adherents do not believe in our institutions, as they cannot accept them and remain true to the creed of the Church. They may pretend to believe in our national life, but they cannot do so. They do not associate with the people belonging to the nation, but designate all whom are not Mormons as Gentiles, a very significant name while they call themselves members of the Church of Jesus Christ, of latter Day Saints commonly known as Mormons. They have always sought to live by themselves, and tried to keep the Gentiles from their territory. They are now repeating ideas, for the Church wishes to control the property as they tried to do in Utah but failed, so now the Church authorities have bought land in the vicinity of Lethbridge for a Separate Colony. They tried to avoid themselves of the Hamlet Clause in the Land Regulations, when they settled at Cardston. They will only be loyal to the State so long as they are weak, but when they have wealth and votes in abundance they will speedily show their power, and then the true character of the institution will not only be seen but felt. For proof of this, we have only to reply, Illinois, Utah and Idaho. When the people were sufficiently organized they defied the laws of the States and Territories and they will repeat the story in Canada when the time is opportune. The whole organization is corrupt in its teachings, injurious to our morality and customs, and in direct antagonism to the true principles of political economy. We are anxious for all classes of settlers who will assimilate with the people in the country and become Canadians, but when settlers seek admission to our country and hold doctrines favorable to the maintenance of an alien nation in our midst, then we do not desire them. Those people applied for citizenship in the United States, and it was denied them, because they held treasonable doctrines, and are our laws less stringent than those of our sister nation, I ask not. If they cannot become good citizens in Utah and Idaho, they will not in Alberta.

Sparks Nearly Extinguished.

To the Editor of the TIMES.

While there are so many improvements coming into use in this prairie country, would it not be advisable to have a night glass invented for those gentlemen who, being of a sparking turn of mind, wander around the prairie after night. One of those gallant youths, while riding from a neighbor's house a few evenings ago, lost his way. We do not know whether their wereany young ladies or mountain dew where he visited, if so the bright glances of the one or the enlivening consequences of the other, might account for his having to wander around until the following morning when he struck a neighbor's house. We sincerely hope our friend (who cannot say he was not tall enough to see over snowdrifts) will another winter have a loving companion to share his fireside, and thus prevent his leaving home on winter nights. As to his probable success in a matrimonial alliance, those who know his fascinating manner and handsome person, will have no doubt of his success.
A MOSQUITO.

To the Editor of the TIMES.

SIR—In the last issue of the TIMES, there appears a letter from a correspondent who signs himself "Bo-Peep" professedly criticising the financial statement of the Town Council, which recently appeared in its columns, and which was signed by me as Chairman, for the past year, of the Finance Committee. Now it is well recognized that in a case like this, anonymous letters do not demand, and should not receive consideration. It is different when a party is answering a letter signed by another under a nome de plume. He may then, if he chooses, honorably withhold his name. But it is quite otherwise when as here, the other party or parties to the controversy are known. It is then the act of a coward to criticise under a nome de plume. Such a party is attempting to fight from a masked battery. This is well understood and ordinarily recognized. If then your correspondent desires a specific reply, he will write as he should have done, over his proper signature. Until he does so, I shall treat his criticisms with silence as far as giving an explanation of the financial statement is concerned, and I take this course the more readily inasmuch as his letter clearly shows, that his motive in writing the letter was to give expression to his animus against me personally rather than to elicit an explanation of any matters in the financial statement. Yours etc,
J. RUTHERFORD.
Moose Jaw, Jan. 29th, 1890.

VOLUME OF WHEAT.

Inspected at the Winnipeg Port in Six Months—Over 1,000,000 Bushels.

Mr. David Horn, the grain inspector at Winnipeg has made a report of the grain inspected by him during the six months ending December 31. It is as follows:—

	Cars.	Bush.	Proportion.
Extra Manitoba hard.	51	33,150	2½ per c.
One hard	718	466,700	37 "
Two hard	481	312,650	25 "
One Northern	15	9,750	1 "
Two Northern	229	148,850	12 "
Three Northern	31	20,150	1½ "
One White Fife	24	15,600	1 "
One Rejected	108	70,200	5½ "
Rejected	245	159,250	12½ "
	1,902	1,236,300	100

This, it must be remembered, represents only the wheat inspected at the port of Winnipeg, and is exclusive of the Port Arthur inspection which in all probability is somewhat larger than this. It fully bears out the belief as to the superior quality of last year's crop, as it shows that 60 per cent graded No. 2 hard or better.

Nevada's Cruel Winter.

The snow in Nevada is heavier this year than it has been for the past twenty-five years. The damage done to stock farms cannot be estimated. Stock raisers expect to lose one half of the sheep and cattle. The stock is freezing to death and the loss of human life is also extremely large, through exposure and storms in the mountains.

LITTLE LUCY'S LUCK.

"I had a disease of the skin for which Mr. tried everything she could think of but without effect, but the first bottle of Burdock Blood Bitters I tried, I found relief. It gave me great satisfaction."
LUCY VENABLES, (age 11.)
Bolsevain, Man.

Striking Out for a New Immigration Policy

Ottawa, Jan. 28.—A strong effort is being made by supporters of the Government to secure some radical change in the immigration policy of the Government. One prominent Conservative member stated today that something had to be done, as the development of Manitoba and the North West depended upon immediate settlement.

A BUSINESS REPORT

Mr. James McArthur of Brooks & McCuaig, selling Bureau, Toronto, Ont., states "Please send several bottles of Burdock Blood Bitters for kidney disease and find it a wonderful remedy. Previously I had to take pills, thinking I had liver complaint, but now I am quite well and will always praise B. B. B."

OTTAWA, Jan. 28.—W. W. Ogilvie of Montreal, and a number of Conservative millers, waited upon the Government to day and had an informal discussion about the grievances they have under the present tariff. Mr. Ogilvie stated that his company were paying 80 cents for wheat in Manitoba, while the ruling price in Dakota was 60 cents. This is a good inducement to immigration, but was rough on the miller, who was not able to secure enough wheat, and had to fight against the fierce competition of American flour. The Ministers promised consideration, and it is rumored that the duty will be increased to 75 cents per barrell.

FIRST HELP FOR THE WOUNDED.

In all cases of wounds, bruises, sores, cuts and sprains prompt action is necessary and the wisdom of those who keep Hagyard's Yellow Oil on hand it demonstrated. It is a prompt, effectual and reliable cure for all injuries, croup, rheumatism, sore throat, etc. Used internally or externally.

A WINTER'S TALE.

Last winter my little girl caught a severe cold which lasted all season. I doctored with everything I could get but to no avail. Finally I got Hagyard's Pectoral Balsam and gave her two doses which improved her, and in a week she was entirely cured by its use. MRS. C. NORMAN, Cornell, Ont.

If you want to buy or sell a farm, advertise in the Toronto Weekly Mail. That paper reaches 100,000 farmers' homes every week, and your advertisement should meet the eye of someone who wants to purchase. Advertisements of this character inserted in the Toronto Weekly Mail for Five cents a word each insertion, or twenty cents a word for five insertions. Address the Mail, Toronto, Canada.

TOWN LOCALS.

FRIDAY, JANUARY 31, 1890.

Remember the carnival at the skating rink this evening (Friday).

Mr. J. McCauley, late of Calgary, has opened out in the watchmaking line in the Annable block.

Another daily paper to be called the "Tribune," will shortly be started in Winnipeg.

Mr. R. L. Alexander has almost completed the matter for his directory of the Moose Jaw town and district. It promises to be a very complete and useful compilation.

Mr. C. A. Gass, photographer, has secured a couple of good negatives of the new school building, which he will develop into photos. It is the intention of the Board to procure a few good electrotypes of this building for advertising purposes.

Go to Bellamy's for the Celebrated Doherty Organ, Evans Piano and White's Sewing Machine.

Judgment was given in the Supreme Court of Canada on Wednesday of last week, declaring Coulter, member for Haldimand, unseated for bribery. A new election will be held at once.

Soft Coal $7.00 per ton at J. T. Simpson's.

The Brass Band have secured one of the vacant rooms in the school building, in which to hold their practices. They play at the carnival in the rink this evening. (Friday.)

Choice Flour, Bran and Shorts
AT ANNABLE'S.

The Trustees at their last meeting placed an insurance of $4,000 on the new school building, at a rate of $1.80 for three years.

FOR SALE—A House and Lot—will be sold very cheap. Possession given April 1, for further particulars apply to
H. C. BATTELL, Moose Jaw.

Mayor Simpson and Councillor J. E. Battell, left on Monday evening, express for Ontario. Mr. Simpson goes east as the representative Immigration Agent for the district. Mr. S. Bedwell, ex-President of the Agricultural Society, will also go east in a short time to lay the advantages of this district, as a field for settlement, before the people of Western Ontario.

ANNABLE & Co. have just received a new lot of Home Made Yarn, also a large roll of Flannel for Shirting and Fulled Cloth.

A special meeting of the town Council was held on Monday evening last, to discuss immigration matters. It was moved by Councillor Annable, seconded by Councillor Battell, that the sum of $75 be given towards procuring Immigration Literature for distribution in the east, and that a committee be appointed to act with the committee of the Agricultural Society in the preparation of the same—carried.

FARMERS AND STOCK DEALERS—Insure your Live Stock in the Lion Provident Live Stock Association, Six of the best Fire Insurance Companies in Canada, represented.
E. B. ALEXANDER, Agent

Mr W. J. Holmes will be at the Brunswick Hotel until the beginning of April, and is prepared to do all kinds of watch repairing in first class style. Engraving and Jewelery work a Specialty.—13.

SERVANT GIRL WANTED — Immediately. Apply at the Methodist Parsonage.

We take up this week in our editorial columns the first of a series of articles on the different aspects of Canadian Mormonism. Judging from the experience of our neighbors south of the line with these people, their appearance in Canada, cannot fail to be looked on as an evil that must be rooted out. We will welcome all settlers to our country who are willing to be placed on an equality with, and ask no special privileges not enjoyed by our native born Canadians. We will not let this matter rest until the Mormons are told to either "get out" or become Canadian citizens.

Public Notice—The Moose Jaw Brass Band have secured the use of the upper flat of the School Room for practicing purposes—upon agreeing to keep the room as clean as possible, we trust the visiting public will observe these rules and govern themselves accordingly. By order,
W. A. PORTER, Secy.

The many friends in Moose Jaw of Mrs. J. A. Whitmore, of Regina, learned with deep regret of her death on Friday of last week. During her five years residence in this town, she made many friends, who all sympathize with the bereaved family.

The Messrs. Gowly, two brothers from Brantford, Ontario, are in town, and stopping at the Ottawa Hotel. These young men are looking up the best place in which to locate. They have spent some time in Dakota and other States, but did not see anything to please them. So far they are much pleased with what they have seen of this district, and upon being shown a sample of the wheat in the warehouse of one of the grain buyers, they expressed the opinion that a district that could produce wheat of such a quality has certainly great advantages for settlers.

The United Endeavor Society of the Presbyterian Church have made arrangements for a course of lectures to be given during the winter. The course consists of four lectures by Revs. Mr. Harrison of Regina, Mr Best of Brandon, Dr. McLean and Mr. Taylor of Moose Jaw. The first lecture will be given by Dr. McLean on Feb. 7th on "Paddle your own Canoe."

Mr. Wm. Grayson was in Pense on Wednesday, and the Valley on Thursday, attending Bailiff sales.

We have to apologize for the small appearance of the TIMES again this week. Our supply of paper is on the road between here and Toronto, through someone's blunder. We hope to appear in usual form next week. We ask the indulgence of our subscribers for what we certainly could not avoid.

Mr. J. G. Gordon is now preparing the material for the Agricultural Society's pamphlet, to be issued shortly.

Dr. Turnbull received a telegram from Winnipeg on Thursday, informing him of the illness of his brother Mr. E. Turnbull. The Dr. left on No. 2 the same evening for the city and expects to return on Monday next.

Mr. Jas. Blackburn, a brakeman, on the C. P. R., had two fingers of his right hand taken of at the first joint, while coupling cars at Swift Current on Thursday.

J. F. Guerin, L. D. S., Dental Surgeon, is now at the Brunswick hotel and will remain until Saturday, February 8th. Persons requiring artificial teeth are requested to call as early in the week as possible.—14.

We would draw the attention of the town councillors to the fact that there is a By-law to compel parties to clean the snow off the sidewalk in front of their places of business.

Lieutenant Governor Royal informed a representative of the Free Press, that a new Advisory Board had been formed with Dr. Brett, of Banff, as premier. The personell of the other members has not yet been made public.

Wednesday's wheat prices were: Grenfell, Regina, 68c; Gretna, Plum Coulee Carberry, Alexander, Griswold 70c. Whitewood, Moose Jaw, 71c. Boissevain, Douglass, Moosomin, Wapella, Ninga, 72c. Carman, Oak Lake, 73c. Holland, 74c. Stonewall, Treherne, Manitou, Pilot Mound, Killarney, Thornhill, High Bluff, Portage la Prairie, Virdon, 75c. Clearwater, McGregor, 77c.

Invitations are out for a grand ball to be given under the auspices of the Moose Jaw Rifle Association, in the C. P. R. Dining Hall, on Wednesday, February 5th. The Association are sparing no pains to make this the affair of the season.

The C. P. R. Employees have received about 235 new books for their library. The new books consist of works on Science, Travel, Adventure, and Fiction, etc., among which may be mentioned, Alden's complete encyclopedia of 40 volumes. The library now consists of about 600 volumes and is the best of its kind in the North West Territories.

The annual congregational meeting of the Presbyterian Church was held on Thursday 23rd inst. The report of the Board of Managers and the report of the Ladies' Aid Society were read to the meeting. An effort is being made to reduce the debt on the church, which promises to be successful. The officers elected for the ensuing year are W. Rothwell, Superintendent of Sunday School; Rev. S. J. Taylor; Assistant Superintendent; F. A. Meller Librarian: O. B. Fysh Secy. Managing Committee—J. H. Ross, H. McDougall, C. A. Gass, W. Rothwell, W. Hannah, R. H. Riddell, D. McLean. A Session will shortly be organized in connection with the church.

The "Pink and White" social given by the Ladies' Aid Society of the Methodist church, in Bellamy's Hall on Wednesday evening, was a very successful affair. The Hall was tastefully decorated and fitted up as a reception room, in which the ladies received and entertained their guests, about 120 in number. The evening was spent in social conversation, parlor games, music etc., and was much enjoyed by all present. The proceeds amounted to $36.

A public meeting, called under the auspices of the Moose Jaw Agricultural Society, was held in the Annable Hall on Saturday 25th inst., for the purpose of receiving the report of the committee appointed to draft a memoral to the Dominion Government on prairie fires, pre emptions and Artesian wells. The memorial, the text of which is too long for this issue, was read clause by clause by Mr. Watson the Secretary of the committee, and discussed and adopted. A discussion then took place on the subject of memorializing the Government to increase the duty on flour coming into Canada, in compliance with the request of the Millers' Association. After a great many of the farmers and others had expressed their opinions *Pro.* and *Con.* in the matter, it was decided to postpone further discussion until a future meeting. A motion was passed that $25 be devoted towards printing Immigration literature for distribution. Mr. J. H. Ross, M. L. A., who was present signified his intention of calling a meeting of the electors of the district for the purpose of explaining the recent difficulty between the members of the Legislative Assembly and His Honor the Lieutenant Governor. It was decided to hold a meeting for this purpose on Friday 31st inst., at 3 o'clock, and to have a dinner on the same evening in honor of the grain buyers of the town and Mr. Ross.

TORMENTS OF TOOTHACHE.

I can recommend Hagyard's Yellow Oil as a sure cure for toothache. I suffered for several days, then I heated my cheek and rubbed the Yellow Oil on it and was immediately relieved.
MRS. DAVID G. ARNOTT,
Russell, Man.

BEHRING SEA

Contains the great seal as the American Republic, and Burdock Blood Bitters contains the virtues of roots, barks and herbs from our fields and forests, making it a wonderful remedy for constipation, dyspepsia, biliousness, bad blood, scrofula and all skin diseases.
